Dear Sultan

I am a boy from Norway, and there I live in the town Stavanger (50000 people). In my land are many mountains and therefore lives there only 3,224 thousand people in it. In the winter is very cold, and therefore we can go skating and skiing, but now the snow and ice are nearly away and we can begin to play football again. My land has very much fish, and it has also many big steamers. I am fourteen years old and go at Kongsgaard high school. There I learn English and German. I am collecting stamps, and if you could send me some stamps and tell me a little from your land I would be you very thankful. Many good wishes from your Jacob-Somme Middelthon, Holbergsgate 92, Stavanger, Norway.

Excuse my mistakes!
