

PEACE

This is an effort
of one human being
to be a Peacemaker.

Will you help?
Please

Wars,
of nations,
of organizations,
of individuals
come about
when one human being
tries to gain something,
and in the process,
injures the rights,
of another human being.

Peace exists
when human beings
exchange their values
in Truth, fairness, freedom,
and human dignity
without loss, or harm, or degradation,
to any
human being,
in any way,
anywhere,
anytime.

PEACE

Present monetary, exchange, and investment systems
emphasize
value through scarcity,
the law of supply and demand,
and disregard,
the needs and hurts,
of unqualified human beings.

Wars,
and threats of total destruction,
are constant.

Every human being
in the World
has, all
that each person needs,
of
Life
Love
Intelligence
Energy
Indomitable self-expression.

These human values
need to be exchanged
by every person in the World,
for,
all the essentials,
and luxuries,
that every person in the World
needs,
for peaceful human life.

producing values of beauty and utility.
